Nagar Division
Commissioner's office
Shimoga 1st June 1878.

To

The Secretary to the
Chief Commissioner of Mysore

Section C.R
7-77

Sir,

I have the honor to submit for the orders of the Chief Commissioner the papers noted in the margin* shewing the result of the Special Settlement of the Hirinjee Taluk, with Abstract Statements for the Hosdroog and Boodihal Taluks. A similar Statement for the Bowghur Taluk is expected shortly.

Copy of Deputy Commr Chitaldroog's No 160 dated 23d May 1878, with enclosures viz:
Hobliwar Abstract Statement
Village war A. Statements
Mr Raghunath Row's letter to Deputy Commissioner No 51 dated 16-5-78.

2. When at Hosdroog last month I had a conference with Mr Cunningham and Mr Rhoden and I was convinced by what I then heard that a very serious delay in the collection of the Revenue would be the result of strictly adhering to the procedure laid down in the circular of the

3

the 26th December last.

3. Some of the reasons for the difficulty found in correctly preparing form A are given in paras 2 to 5 of Mr Cunningham's letter, and these having been discussed at Hoshiarpur & determined to authorize the Deputy Commissioner, in the spirit of the Chief Commissioner's instructions marginally noted, to send in the Abstract statements now submitted and in the meantime to direct Aumildars to lose no time in enforcing collections from those Ryots whose names would be found in the lists referred to in para 6 of Mr Cunningham's letter, as not entitled to any postponement. I trust that these proceedings will meet with the approval of the

Para 6 of Chief Commissioner's Proceedings &c 170/4 dated 12th April 1878.

the Chief Commissioner 4

4. With reference to cases of contumacy referred to in para 8 of Mr Cunningham's letter I found that in each Taluk and in almost every village, there were a few influential men, Potails, Thambyans and others, who failed themselves to pay the Government dues, and who mitigated their neighbours in the same direction. These men keeping in the background endeavour to fortify their position by sending crowds of poorer ryots to clamour for remission. Annildars are greatly afraid of taking action, but I have always encouraged them to single out the ringleaders in such movements and report them for the special orders of the

Deputy

Deputy Commissioners

5 While on this subject I would solicit instructions whether the orders contained in Proceedings No. 170-4 dated 12th April are intended to restore to Amildars and Deputy Commissioners their respective powers of distraint and sale which were suspended by the Circular of the 26th December, and No. 8843/42 of 14th January last. These powers would of course be exercised only in unaffected Talukas and in the case of those ryots in affected Talukas who are declared to be not entitled to any postponement.

I have the honor to be,
Sir,
Your most Obed.t Servt.

The Commissioner
Nagar Dy

Sir,

In forwarding, together with a copy of Mr Raghoonatha Row's report No 51 dated the 16th Instant, the A statements shewing by villages the results of the special Jumabundy in the Huzoor Taluk, I have the honor to submit the following remarks touching the lateness of the submission of these forms.

2. The forms as originally drawn up did not contemplate postponement upon wet lands, nor concession on dry lands more than half cultivated on which the crops had failed; and when these concessions were subsequently granted the orders were unaccompanied by instructions as to how the concessions were to be shewn in the form. Ryots too, who would, under the letter of the rules contained in the order No $\frac{8389}{32}$ of the 26th Decr, have

have been entitled to postponement are to be called on to pay if found able to do so, Iraandars are in all cases to pay but the form contained in column in which to shewn their cases.

3. These matters were made, the subject from time to time of orders from this office to the Jamabundy officers. The necessity for these subsequent directions coupled with the laborious procedure as originally ordered, as you are aware, took the Jamabundy officers, all of whom had other pressing duties to attend to, a very long time in completing their enquiries and preparing their statements.

4. No new columns have been opened in the statements but endeavours were made to fit the altered circumstances into the existing form, and the result was that the Jamabundy officers had been directed to shew the wet land on which postponement was allowed as dry land, the lands where crops had

had failed as land not cultivated at all, and a holding which contains three kinds of land as three holdings, and it is to be regretted that the statements prepared accordingly cannot but fail to afford accurately the information they were intended to contain.

5 Orders have lately been received reversing these instructions so far as accounting for wet land in dry land columns and shewing one "holding" as three are concerned, but meanwhile the majority of the statements has either been completed or has advanced so far towards completion that to carry out these new instructions would involve so great a labor that I determined, I believe with your approval, to submit those statements already drawn up in accordance with previous instructions as they are.

6. With a view to the realization of the recoverable portion of the Revenue as soon as could be, I have been furnishing

had failed as land not cultivated at all, and a holding which contained three kinds of land as three holdings, and it is to be regretted that the statements prepared accordingly cannot but fail to afford accurately the information they were intended to contain.

5 Orders have lately been received reversing these instructions so far as accounting for wet land in dry land columns and shewing one "holding" as three are concerned, but meanwhile the majority of the statements had either been completed or had advanced so far towards completion that to carry out these new instructions would involve so great a labor that I determined, I believe with your approval, to submit those statements already drawn up in accordance with previous instructions as they are.

6. With a view to the realization of the recoverable portion of the Revenue as soon as could be, I have been furnishing

furnishing the Amildars with the detailed
lists of Ryots who are returned by the
Jamabundy officers as not entitled to
the postponement as soon as they
were known to me, and while Hungund
is as yet the only Taluk for which I can
submit the detailed information in
form A, I am able to give in a shorter
form, Statements for all the affected
Talukas shewing the proportion of the Revenue
postponed, and the proportion to be
recovered, with the exception of Pavagada.

7. The Statement for Pavagada I expect
to receive very soon, and with them
forward it, but Khedeni duties having
called him away into the Hungund
and Budhihal Talukas for a time
and he having only returned to Pavagada
a day or two ago, the delay in the
case of that Taluk was unavoidable.

8. Renewed instructions have been
issued to Amildars to do their utmost
in realizing recoverable revenue, not
only in the Talukas where the special

Jamabundy

× Hungund
Hoodroog
Pavagada
Budhihal

with that of the preceding years is as follows:

	Dry		Wet		Garden		Total	
	As cultivated the preceding year	As cultivated this year	For the preceding year	For the year	For the preceding year	For the year	For the preceding year	For the year
[illegible]	44718-6	25398-18	487-26	473-8	1063-6	993-2	46268-38	26842-28
[illegible]	277-1	53874-34	709.36	688-25	1570-30	1472-33	7497-27	56036-12
[illegible]	043-3	11460-28	870-1	361-15	1614-33	1573-37	25027-37	13395-33
[illegible]	29022-14	1987-2	941-1	941-1	1456-39	1437-18	31420-14	22195-21
[illegible]	528-12	9814-23	420-36	370-12	590-12	564-24	18539-20	10749-19
[illegible]	[illegible]-88-36	120365-20	292-9-20	2834-21	6236-[illegible]	6041-34	198754-16	129241-35

The decrease in the cultivation this year is 34-9 acres per cent the existing population as compared with the preceding year appears to be as follows:—

Last year	Male	Female	Total
[illegible]	24192	21,973	46165
[illegible]	10732	11468	22,200
Difference	13460	10505	23.965

It will be observed from the tables given above that in the preceding years 4-3 acres were cultivated per head and that in the year under report it

Hopes 5-8 acres per head. Granting that the cultivation of an acre of land is required for the support of an average man, the agricultural result of the year under reference does not appear to be unfavourable as the number of acres cultivated exceeds more than 5 times that of the existing population. But the outturn was not as good as it could be imagined.

4. Although the early dry crops have suffered more or less partly owing to the failure of early rains in some parts and partly owing to the excess of the late rains, the later crops such as white jolah. Cotton Bengal gram &c raised on black soils and in kuttay lands were excellent. Had it not been for the attacks of insects the harvest would have been considered as plenty. In a greater portion of Anuthoor

Mr Rogoonath Row
Jamabundy officer
Hercoor Talook

To

The Deputy Commissioner
Chittaldroog Dte
dated 16th May 1878

Sir

The Jamabundy Settlement of the Hercoor Talook having been completed in the special manner as ruled in the Chief Commissioners proceedings No 8389 Rev 32 of 26th December last, I have the honor to submit the following report.

2. The field Inspector of 222 villages of this Talook occupied me 54 days from 5th February to 30th March. Not to speak of the average distance of about 3 miles from one village to another with the exception of the villages in the Inchode and the eastern portion of the Cusbah Hobles, where there are much nearer to each other, I had to attend to other duties during

during the interval, viz trial of Criminal Cases ——— settle=
=ment of Mohaturfa questions, incidental to the Jamabundy, enquiring into the state of crops particularly of Muthode Hobli for which I have submitted a special report and enquiring into the state of the distressed people and referring them for help to the Relief Officer in accordance with the instructions contained in the Offg Commrs letter No of

The only Moorshee who was deputed to do work under me having died of fever shortly after I set out for the Jamabundy, I was without any establishment until the 19th March. The Coolwar Jamabundy statements of the several Hobles could not therefore be submitted earlier than I have done.

3. From the aforesaid statements it will be gathered that the cultivated area during the year under report as compared

5. A Kobliwar statement [illegible] 17
the prescribed form A showing
the result of the Jamabandi of
the Taluka is annexed to this report
The following Tables abstracted
from the statement will show
at a glance, the Land Revenue
settlement of the Taluka for the
year under report

Table No I.

and Javangondanhully Hobles
and in part of the Kunba Hobles
where there is no black cotton soil
the dry crops suffered most. A
large extent of land was left
uncultivated in these parts,
either owing to the loss of cattle
or desertion or death of a great
number of Ryots. The amount
of labour bestowed upon the
soil was also very inferior as
compared with the preceding year.
This was of course from the
effects of the famine. Further
wells and buttay lands are not
so numerous in these parts
as they are in the other parts
of the Taluk. Hence the distress
was more severely felt here
than elsewhere in the Taluk.
The October rains had however
the beneficial effect of removing
the water scarcity by filling
up the tanks and wells and
the wet Vysak crops were
flourishing throughout the
Taluk. It is not out of place
here to remark that the
somewhat extensive cocoanut
gardens in the Kuthode

Total	6149-15-8	3451-4-11	2698-11-8	— " —

Hobbee, those in Iravanmadu
Village of Javangondan Pully Hobbee
as well as in Tavundee Village
of the Eusbah Hobbee suffered
much from the excessive drought
of the preceding years. In the
last mentioned two villages
the loss was very great. I may
also remark here that there
was a great wastage of water
of Puramadoor Tank as well
as that of Puggudkullay. Much
water escaped through the
crevices in the outlet of the
former Tank and it was
utilized by the villagers
of Kanjada Pully village
attached to Her Majesty's
Territories in irrigating their
lands. A portion of the
water of the latter Tank
was however utilized by the
villagers of Manikkar in
cultivating their wet lands,
the Tank of the last mentioned
village having been recently
breached. A large quantity
of water of Sowdee Pully Tank
was also wasted. C

The great decrease in the Inhabitants Revenue for the year under report hardly requires explanation. Many of the Tax payers who were generally non agricultural class have either died or gone away in consequence of the famine. Numbers of houses in each village remain deserted and they have become valueless. The Iron Manufactories in the Imthode, Gubbah, Jawagondanahully Holeles have been completely dilapidated. The manufacture of iron has come to a stand still in consequence of the death or desertion of the workmen who had received large advances, the factors suffering thereby dreadful losses.

8. In conclusion I have to state that I have received material assistance from Mr Poopposa Sawy Naidoo, the Amildar of this Taluk who was good enough to depute his Revenue Goomashta to assist in the preparation of the Kharwar Jamabundy statements and the abstract, - Iwoonshee Rungaiah worked well under me.

I have the honor to be
Sir
Your most obedient Servant

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 22nd June 1878.

No. 2147—17, DATED BANGALORE, 22ND JUNE 1878.

ORDER.—On a comparison of the Land Revenue realizations for 1877—78 up to 31st May last, with this office estimate, there is, as shewn in the margin, a total decrease of about 14¼ lakhs, three-fourths of which is attributable to very large outstandings in the Hassan, Túmkúr, Mysore and Chitaldroog Districts. This circumstance leads the Chief Commissioner to apprehend that the orders issued in this office Proceedings No. 170—4, dated 12th April last, have not been acted on so thoroughly as intended, and to urge the necessity for the prompt enforcement of the public demand in the case of those who are clearly able to pay. Mr. Gordon confidently relies on the District Officer's satisfying himself thoroughly on this point before resorting to sale.

	Estimated realizations.	Collections.	Decrease.
Bangalore	5,50,642	4,66,176	84,466
Kolar	5,12,147	5,10,939	1,208
Túmkùr	6,04,018	2,82,694	3,21,324
Mysore	9,24,905	6,83,203	2,41,702
Hassan	8,68,295	3,76,745	4,91,550
Shimoga	10,82,475	10,32,942	49,533
Kadur	4,77,981	4,42,239	35,742
Chitaldroog	4,85,507	2,85,087	2,00,420
	55,05,970	40,80,025	14,25,945

2. In such case the land may be attached and sold with the sanction of the Commissioner of the Division, who will however report such sanctions for the information of the Chief Commissioner.
